Danger

Causes severe skin burns and eye damage. May cause an allergic skin reaction. May cause cancer. May cause respiratory irritation. Causes damage to lungs through prolonged or repeated exposure. Keep out of reach of children. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Wear protective gloves and clothing as well as eye and face protection. Remove contaminated work clothing. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use only outdoors or in a well-ventilated area. Do not breathe dust.

If exposed or concerned: Get medical advice/attention. If swallowed: Rinse mouth. Do NOT induce vomiting. Immediately call a poison center/doctor. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.Wash contaminated clothing before reuse. If concerned, call a poison center/doctor. If inhaled: Remove person to fresh air and keep comfortable for breathing. If concerned, call a poison center/doctor. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a doctor.

Store to prevent dust generation. Store to keep dry until use.

Dispose of contents and container in accordance with all local, state and federal regulations.

Read and Follow all precautions listed in the Safety Data Sheet available on request or at Ashgrovepkg.com. Additional information on the selection and use of respirators can be found in the NIOSH Respirator Selection Logic (DHHS [NIOSH] Publication No. 2005-100) and the NIOSH Guide to Industrial Respiratory Protection (DHHS [NIOSH] Publication No. 87-116) available at http://www.cdc.gov/niosh/docs/87-116/

This product contains greater than 0.1% crystalline silica. Crystalline silica has been linked to

Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.

cancer, silicosis, and other lung problems in conditions of prolonged airborne over-exposure.

Keep product dry until use. Avoid contact with bleed water from wet product. Clothing saturated with wet product can result in delayed, serious alkali skin burns.

2.3. **Other hazards**

No additional information available.

2.4 Unknown acute toxicity (GHS-US)

Coarse Grout Construction Anchors: 9 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Core Fill Grout: 14 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Pro Mix Masonry Type N, PRS Mortar Construction Anchors: 16 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Pro Mix Masonry Type S: 18 % of the mixture consists of ingredient(s) of unknown acute toxicity.

1-Kote Premix Stucco: 20 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Gunite F Grey, PM KRT Mix, Fast Set Non-Shrink Grout: 23 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Finish Stucco Coarse: 28 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Rapid Set Concrete Mix: 30 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Polycon Sand Mix: 31 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Rapid Set Mortar Mix, Finish Stucco Fine: 33 % of the mixture consists of ingredient(s) of unknown acute toxicity.

KolorStone Broom Coat: 34 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Multipurpose Thin Set Mortar Grey, Mine Bonding Cement: 36 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Medium Bed Thin Set Mortar Grey: 41 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Rapid Set Cement All: 47 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Stucco Concentrate Grey: 75 % of the mixture consists of ingredient(s) of unknown acute toxicity.

Safety Data Sheet according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.

SECTION 4: First aid measures				
4.1. Description of first aid measures				
First-aid measures after inhalation	If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get immediate medical advice/attention.			
First-aid measures after skin contact	In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing. Wash contaminated clothing before reuse. Get immediate medical advice/attention.			
First-aid measures after eye contact	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lenses, if worn. Get immediate medical advice and attention.			
First-aid measures after ingestion	If swallowed, do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get immediate medical advice/attention.			
4.2. Most important symptoms and effects	both acute and delayed			
	May cause respiratory tract irritation.			
	Causes severe skin burns. Symptoms may include redness, pain, blisters. Do not allow product to harden around any body part or allow continuous, prolonged contact with skin. May cause sensitisation by skin contact.			
Symptoms/injuries after eye contact	Causes serious eye damage. May cause burns. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva.			
Symptoms/injuries after ingestion	May be harmful if swallowed. May cause stomach distress, nausea or vomiting.			
4.3. Indication of any immediate medical a	ttention and special treatment needed			
Symptoms may not appear immediately. In case of a	ccident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).			
SECTION 5: Firefighting measures				
5.1. Extinguishing media				
Suitable extinguishing media	Treat for surrounding material.			
Unsuitable extinguishing media	None known.			
5.2. Special hazards arising from the subs	tance or mixture			
Fire hazard	Product does not burn; however its packaging may. Products of combustion may include, and are not limited to: oxides of carbon.			
5.3. Advice for firefighters				
Firefighting instructions	Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).			
SECTION 6: Accidental release measu	Ires			
6.1. Personal precautions, protective equi	pment and emergency procedures			
General measures	Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Avoid contact with skin and eyes.			
6.2. Methods and material for containment	t and cleaning up			
For containment	Contain spill, then place in a suitable container. Do not flush to sewer or allow to enter waterways. Use appropriate Personal Protective Equipment (PPE).			
Methods for cleaning up	Vacuum or sweep material and place in a disposal container. Provide ventilation.			
6.3. Reference to other sections				
No additional information available.				
SECTION 7: Handling and storage				
7.1. Precautions for safe handling				
	Avoid contact with skin and eyes. Avoid generating and breathing dust. Do not swallow. Good housekeeping is important to prevent accumulation of dust. The use of compressed air for cleaning clothing, equipment, etc, is not recommended. Handle and open container with care. When using do not eat, drink or smoke.			
	Launder contaminated clothing before reuse. Wash hands before eating, drinking, or smoking.			
7.2. Conditions for safe storage, including				
Storage conditions	Keep out of the reach of children. Avoid any dust buildup by frequent cleaning and suitable construction of the storage area. Store to keep product dry until use. Store to prevent dust generation. Do not store in an area equipped with emergency water sprinklers.Clean up spilled material promptly.			
.3. Specific end use(s)				
No additional information available.	No additional information available.			

Safety Data Sheet according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.

9.2. Other information			
VOC content : No data available.			
SECTION 10: Stability and reactivity			
10.1. Reactivity			
No dangerous reaction known under conditions of	normal use. An alkali reaction from components of portland cement will cor	rode aluminum.	
-			
10.2. Chemical stability			
Stable under normal storage conditions. Keep dry	in storage.		
10.3. Possibility of hazardous reactions			
Strong acids may cause violent, exothermic reaction	on, evolve toxic gases. Do not mix with other chemicals.		
10.4. Conditions to avoid			
Moisture – product must be kept dry until ready to			
10.5. Incompatible materials			
Strong acids may cause violent, exothermic reaction	on, evolve toxic gases.		
10.6. Hazardous decomposition products			
None known.			
SECTION 11: Toxicological informatic			
SECTION 11: Toxicological informatic			
11.1. Information on toxicological effects			
Acute toxicity	: Not classified.

Iron oxide (Fe2O3) (1309-37-1)				
IARC group	3 - Not classifiable			
Vinyl acetate (108-05-4)				
IARC group	2B - Possibly carcinogenic to humans			
Reproductive toxicity	Based on available data, the classification criteria are not met.			
Specific target organ toxicity (single exposure)	May cause respiratory irritation.			
Specific target organ toxicity (repeated exposure)	: Causes damage to lungs through prolonged or repeated exposure. (Respirable crystalline silica in the form of quartz or cristobalite from occupational sources is listed by the International Agency for Research on Cancer (IARC) and National Toxicology Program (NTP) as a lung carcinogen. Prolonged exposure to respirable crystalline silica has been known to cause silicosis, a lung disease, which may be disabling. While there may be a factor of individual susceptibility to a given exposure to respirable silica dust, the risk of contracting silicosis and the severity of the disease is clearly related to the amount of dust exposure and the length of time (usually years) of exposure.)			
Aspiration hazard	: Based on available data, the classification criteria are not met.			
Symptoms/injuries after inhalation	: May cause respiratory tract irritation.			
Symptoms/injuries after skin contact	 Causes severe skin burns. Symptoms may include redness, pain, blisters. Do not allow prod to harden around any body part or allow continuous, prolonged contact with skin. May cause sensitisation by skin contact. 			
Symptoms/injuries after eye contact	: Causes serious eye damage. May cause burns. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva.			
Symptoms/injuries after ingestion	: May be harmful if swallowed. May cause stomach distress, nausea or vomiting.			

SECTION 12: Ecological information 12.1. Toxicity

Ecology - general

: No ecological consideration when used according to directions. Do not flush to sewer or allow to enter waterways.

Acetaldehyde	(CAS No) 75-07-0	< 0.1	Flam. Liq. 1 Eye Irrit. 2A Carc. 2 STOT SE 3
SECTION 4: First aid measures			

4.1. Description of first aid measures	
First-aid measures after inhalation	: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.
First-aid measures after skin contact	: If irritation occurs, flush skin with plenty of water. Get medical attention if irritation persists.
First-aid measures after eye contact	 In case of contact, immediately flush eyes with plenty of water. Remove contact lenses, if worn. If irritation persists, get medical attention.
First-aid measures after ingestion	: If swallowed, do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical advice/attention if you feel unwell.

Safety Data Sheet according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012

Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.	
Environmental exposure controls	: Maintain levels below Community environmental protection thresholds.	
Other information	: Do not eat, smoke or drink where material is handled, processed or stored. Wash hands carefull before eating or smoking. Handle according to established industrial hygiene and safety practice	,

SECT	ION 9: Phy	ysical and	l chemical	properties	
0.4		and the second	the second s	the second se	

9.1. Information on basic physical and c	hemical properties
Physical state	: Liquid
Appearance	: Paste/Resin
Colour	: Varies
Odour	: Varies
Odour threshold	: No data available
рН	: No data available
Melting point	: No data available
Freezing point	: No data available
Boiling point	: No data available
Flash point	: No data available
Relative evaporation rate (butylacetate=1)	: No data available
Flammability (solid, gas)	: Not flammable
Explosive limits	: No data available
Explosive properties	: No data available
Oxidising properties	: No data available
Vapour pressure	: No data available
Relative density	: No data available
Relative vapour density at 20 °C	: No data available
Solubility	: No data available
Partition coefficient: n-octanol/water	: No data available
Log Kow	: No data available
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Viscosity	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available

Other information 9.2.

No additional information available.

SECTI	ON 10: Stability and reactivity
10.1.	Reactivity
No dang	erous reaction known under conditions of normal use.
10.2.	Chemical stability
Stable ur	nder normal storage conditions.
10.3.	Possibility of hazardous reactions
No dang	erous reaction known under conditions of normal use.
10.4.	Conditions to avoid
Heat.	
10.5.	Incompatible materials
None kno	own.
10.6.	Hazardous decomposition products
None kno	own.

Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012

according to the Hazard Communication Standard (CFR29	91910.1200) HazCom 2012
SECTION 11: Toxicological information	on
11.1. Information on toxicological effects	
Acute toxicity	: Not classified.
Primers, Bonders, Sealers, and Paints 1	
LD50 oral rat	> 2000 mg/kg
LD50 dermal rabbit	> 2000 mg/kg
LC50 inhalation rat	No data available
Skin corrosion/irritation	: Based on available data, the classification criteria are not met.
Serious eye damage/irritation	: Based on available data, the classification criteria are not met.
Respiratory or skin sensitisation	: Based on available data, the classification criteria are not met.
Germ cell mutagenicity	: Based on available data, the classification criteria are not met.
Carcinogenicity	: Based on available data, the classification criteria are not met.
Acetaldehyde (75-07-0)	
IARC group	1 - Carcinogenic to humans (alcoholic beverages), 2B - Possibly carcinogenic to humans
National Toxicology Program (NTP) Status	3 - Reasonably anticipated to be Human Carcinogen
Reproductive toxicity	: Based on available data, the classification criteria are not met.
Specific target organ toxicity (single exposure)	: Based on available data, the classification criteria are not met.
Specific target organ toxicity (repeated exposure)	: Based on available data, the classification criteria are not met.
Aspiration hazard	: Based on available data, the classification criteria are not met.
Symptoms/injuries after inhalation	: May cause respiratory tract irritation.
Symptoms/injuries after skin contact	: May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin.
Symptoms/injuries after eye contact	: May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.
Symptoms/injuries after ingestion	: May be harmful if swallowed. May cause stomach distress, nausea or vomiting.
SECTION 12: Ecological information	
12.1. Toxicity	
Ecology - general	: May cause long-term adverse effects in the aquatic environment.
12.2. Persistence and degradability	
Primers, Bonders, Sealers, and Paints 1	
Persistence and degradability	Not established.
12.3. Bioaccumulative potential	
Primers, Bonders, Sealers, and Paints 1	
Bioaccumulative potential	Not established.
12.4. Mobility in soil	
No additional information available.	
12.5. Other adverse effects	
Effect on the global warming	: No known ecological damage caused by this product.

SECTI	SECTION 13: Disposal considerations		
13.1.	Waste treatment methods		
Waste di	sposal recommendations	: This material must be disposed of in accordance with all local, state, provincial, and federal regulations. The generation of waste should be avoided or minimized wherever possible.
